

## RACQUETBALL EYEGUARDS:

According to the manufacturer, the following models of protective eyewear **meet ASTM or CSA impact standards for racquetball, as specified in USRA rule 2.5(a).**

### Rule 2.5 APPAREL

(a) Lensed eyewear designed for racquetball, which meets or exceeds ASTM F803 or Canadian (CSA) impact standards, is required apparel. This rule applies to all persons, including those who must wear corrective lenses. The eyewear must be worn as designed and at all times. A player who fails to wear proper eyewear will be assessed a technical foul and a timeout to obtain proper eyewear [see Rule 3.17(a)(9)]. A second infraction in the same match will result in immediate forfeiture of the match.

**PLEASE NOTE:** The ASTM standard cited in rule 2.5 addresses the impact resistance of the tested eyeguards **as a unit**. This means that the lens and frame **combination** meets the cited safety standard. For those who must wear corrective lenses, it is **not** acceptable to merely have impact resistant lens material placed in everyday, fashion eyeglass frames. Please use the following list (or the expanded version with prices and vendor information) to select a suitable model for your protection.

<b>MANUFACTURER.....</b>	<b>Models</b>
<b>BLACK KNIGHT .....</b>	Action Eyes; Action Eyes (small); Black Knight Sight Guard; Turbo; Vista.
